

Santa Cruz Lawn Bowls Newsletter

July 2020

Thanks to all who have been so supportive in these past difficult days. I sincerely appreciate those who were able to attend John's funeral, all who sent the very kind cards and the encouraging emails. On a good note, we have been given permission by the city to reopen as of Monday, June 22. There are a lot of new protocols in place. Full listing is below.

Calendar

Still unable to have any social events.

Focal Point Aiming line (Rob Judson Lawn Bowls Coaching) First some terms: Aiming line is the line of sight. It is the line between the sighting eye and the chosen aiming point. The delivery line is the line the bowl initially travels on release. It is the line followed by the bowling hand near the bottom of the forward swing of the delivery arm. The aiming point is a point on the aiming line on which a bowler focuses attention for delivery. Bowlers have several options for selecting the aiming line. Some use patterns on the mat to align their foot. Some bowlers use rink markers; some use color variations on the green itself. All have advantages and disadvantages. The important thing to remember is to bowl "to" the jack, rather than "at" it.

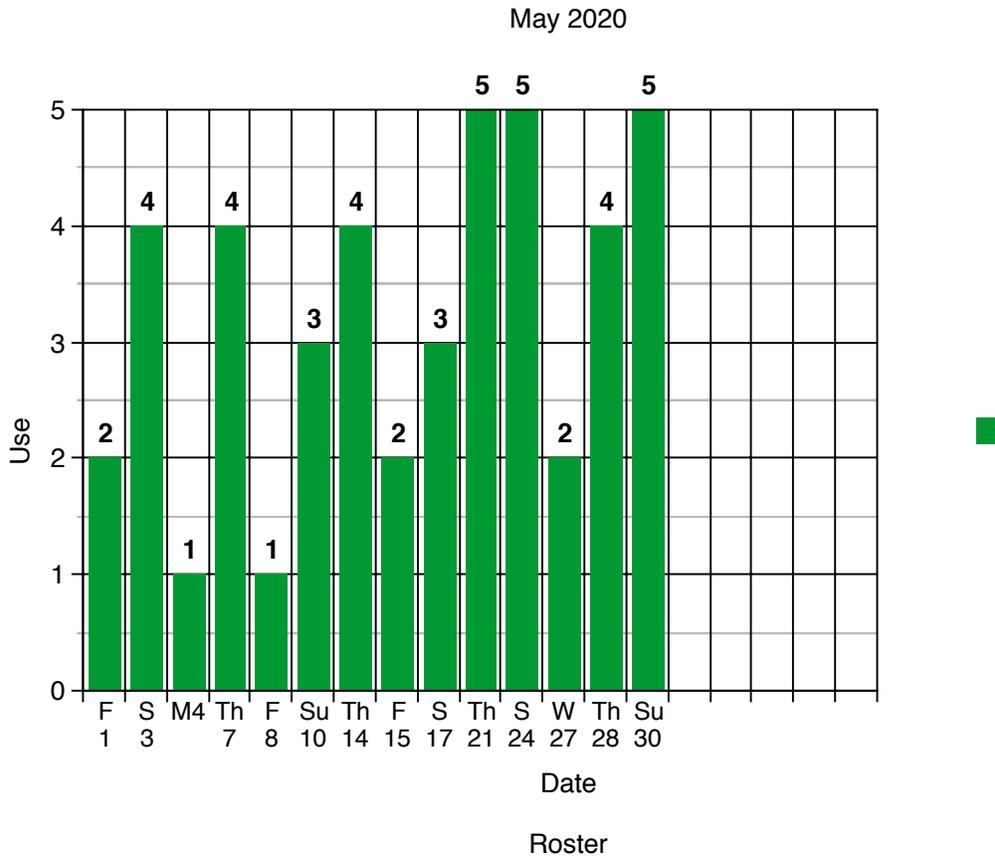

Goals

Personnel: To have a net gain of 5 members added to our January 31 roster.

Facilities: Front door of clubhouse to have magnet removed and be repainted. Front door garden to be improved and hanging boxes replanted.

Finance: To add \$5000 to green replacement fund .
